

Waukesha Chess Club

COVID-19 Guidelines

April 25, 2021

The Waukesha Chess Club, by vote of its Board of Directors, has adopted the following requirements as precautions against COVID-19 infections:

All players and visitors will be required to wear masks when entering the Eagles Club building through the door at the east end of the building. There is a large sliding partition or room divider just to the left of that entrance door. Anything to the right of that partition is the "east" portion of the meeting area. This is the Morgan Street end of the building. Players and visitors will be required to wear masks whenever they are in the east portion of the meeting area. This includes, of course, whenever any player is playing a game of chess there.

Anything to the left of the partition is the "west" portion of the meeting area. Players and visitors may choose not to wear a mask when they are in that area.

If two players who prefer not to wear masks are paired against each other, they must play their game in the west portion of the meeting area. Otherwise, all games will be played in the east portion with each player wearing a mask. To be clearer, if a player who prefers not to wear a mask is paired against a player who prefers to wear a mask, both players must wear masks.

Players and visitors should bring their own masks. The club has a supply of masks for use as needed, plus disinfecting sprays, disinfecting wipes and isopropyl alcohol spray. Players and visitors are urged to use soap and water when washing hands, and to use sprays and wipes.
